

We know our customers want to find the best possible value when making a purchasing decision. In an effort to make that decision easier, we offer a competitive price match policy. We will happily meet the price of our local competitor for any items that we have currently in stock and meet the qualifying criteria. Online prices from traditional retailers will also be considered. Online auction sites and buying club prices will not be honored.

Items must be unused, must be the same: season, style, size, and color, & be in stock at the competitor.

We respectfully request that you participate in the verification process. We reserve the right to limit quantities.

**For more information, or to benefit from this policy,
please ask a sales associate for assistance.**
